Re: Gold and Silver Audit of BA Gold Enterprises Inc.

Dear Sir/Madam,

On December 23, 2025, our office conducted an audit of the precious metal holdings in two separate vaults controlled by BA Gold Enterprises Inc. The metals attributable to the vaulting program administered through the Strato Mercata marketplace are as follows:

Qty	Metal	Denomination	Allocation	Location
20	Asahi and Comparable Gold Bars	1 kilogram	Boris Aronov Staked Gold	Main Vault
40	Unbranded Silver Bars	1000 oz	Rafael Aronov/Boris Aronov Staked Silver	Main Vault
2	Unbranded Silver Bars	1000 oz	Customer Vaulting	Main Vault
28	Asahi and Comparable Silver Bars	100 oz	Customer Vaulting	Ancillary Vault
8	Asahi and Comparable Silver Bars	10 oz	Customer Vaulting	Ancillary Vault
20	Asahi Gold Bars	1 oz	Customer Vaulting	Ancillary Vault

39	South African Krugerrand and Maple Coins	1 oz	Customer Vaulting	Ancillary Vault
----	--	------	-------------------	-----------------

Please note that the quantities of vaulted silver exceeds the amounts provided under the Strato Mercata schedule due to the use of 1000 oz bars. Upon redemption of silver on the platform, the 1000 oz bars would be exchanged into smaller denominations to facilitate the exchange.

The BA Gold Enterprises safe was closed during the holiday period from the date of examination through the end of 2025 and therefore the effective date of this metals audit is December 31, 2025 despite the observations taking place on December 23, 2025.

Respectfully,

Frank Pasatieri, CPA
